Ad 1.) remaining motorcycles EURO4

We have following EURO4 motorcycles in stock:

Type	Colour	Qty.
EFI		
Classic	Cherry red	1
Classic	Tundra metallic	1
cT	Azur	2
cT	Terracotta	1
Tourist	Burgundy satin	1
Tourist	Black metallic	1
Tourist	Terracotta metallic	1

There are no more motorcycles from the factory this year. Other orders for URAL motorcycles beyond the stock list must be booked for 2021 with 2021 models including new prices.

Ad 2.) delivery delays

The current economic conditions from Covid-19, lock down in many countries and upcoming Christmas are causing the transport industry to collapse. There have been enormous delays for parcel services and transport companies since middle of November. We are affected as well. We ask for your understanding that our transport companies, in particular GLS and Schenker, rotate. We pass on your complaints about delays in delivery services and we stand up for you with these companies, but unfortunately we can hardly change the situation.

We currently receive 20 motorcycles from the factory every 5 days, most of which still want to be sent to you this year. Please understand, we cannot do magic either. The dispatch of motorcycles without the addition of spare parts can be done faster by us. It is currently very difficult for us when subsequent deliveries of spare parts are requested.

We will try to send as many motorcycles as possible and also to send the papers in advance so that the motorcycles can still be registered before Christmas. Please give us your opening times over the holidays, possibly your mobile number, so that we can make Aviso.

Please do not ask when which truck is coming. It is now happening in rapid succession.

Every dealer who has ordered motorcycles receives an e-mail in which we ask which motorcycles we should send, if possible. With immediate effect, we reserve the right to send parts orders that you want us to send with motorcycles via parcel delivery, as the addition will be very delayed. If possible, parts orders will be sent separately, but the shipping of motorcycles are our priority.

3.) end of series

We have applied for EURO4 vehicles for exemption under the title "End of series" in the ministries of the following countries: Belgium, Italy, France.

Next week we will apply to the ministries of the following countries for a special permit under the title "end of series" for EURO4 vehicles: Germany and Austria.
