

Ural spare parts catalogue, edition 2019
Valid from 1st of January 2019

This spare parts catalogue shows drawings and references for following Ural models:
EFI-Models as far information from factory is available.

This catalogue will make the ordering procedure for dealers efficient.
For ordering please only use the short ID-number and/or the longer spare parts number
and please also name the title of the ordered part. Never use the number of figure and
position for ordering!

Ordering of coloured parts:

Please always indicate the colour, which you need. In case of orders of coloured parts
without indication of the needed colour,
we will send parts in colours of our own choice. We will send mainly black painted parts. In
case the colour of the part finally
is not convenient, we do not exchange to another colour on our expenses. So really
indicate the colour.

Dealers price: Is the sales price only for authorized Ural dealers from stock
Marchtrenk/Austria without shipping costs.

Retail price: Is the recommended minimum sales price for customers without national VAT.

Surcharge for 2-coloured or 3-coloured parts is approx. 10% both on dealers- and retail
price.

The code „LH“ (=LeftHand) within a part number or part description indicates that this part
is intended for use on
a motorcycle with the sidecar on the left side.

“On request” or “OR”: These parts can principally not be ordered as single part and
therefore are without price.

Sometimes the parts may be on stock. Please ask for price and availability when needed.

“not available” or “NA”: These parts are not in production anymore and therefore not
available anymore.

Changes in pricing could be possible during the year.

Some part numbers and prices were not available when this catalogue was designed.

Amendments and changes will be done per newsletter during the year.

Errata cannot be avoided. Please inform us, when you discover misprints or errors.

All previous spare part catalogues are not valid anymore, do not use old catalogues
anymore.
