## **Newsletter No: 02/2021**

Topics:       1.) motorcycles in stock  
              2.) models and prices 2021

### **Ad 1.) motorcycles in stock**

Unfortunately we don't have any motorcycles available. We are sold out.  
EURO5 models will be available starting in April 2021 probably.

### **Ad 2.) models and prices 2021**

This year we will cancel model Tourist. The demand for this model has steadily declined in recent years. As a replacement for the Tourist model, we will (re)introduce the model T. The Model T is a stripped-down version of the Tourist. It is a T TWD without 2WD. The URAL T model is the new base model version. It will be the cheapest URAL. It has 19 inch wheels, no spare wheel, no accessories, equipped with 2/3 seat, no little seat. We will offer the model T in 2 colors:

Black glossy with chrome rims, handlebars and shock absorbers and  
Black matt with rims, handlebars, shock absorbers in black.

We will be able to offer the Classic model again in 2021. We only have a limited number of Marzocchi telescopic forks available, but we think that we can still deliver throughout 2021, but only with black fork legs, as we have done since 2020.

A sidecar drive has also been available for the LH versions since the end of last year. These versions are of enormous importance for Great Britain, Ireland, South Africa, Japan, etc. URAL expects a large increase in sales in countries with left-hand traffic.

URAL Cross is a Sportsman with a cross sidecar kit. This is only available in the RH version. The cross sidecar kit attachment always has a black frame and two silver aluminum boxes.

#### Rear-wheel drive models and 2WD

#### DP

#### retail price excl. tax/es

T TWD	(RH)	EUR 11.600,--	EUR 14.200,--
T TWD	(LH)	EUR 11.800,--	EUR 14.400,--
Sportsman	(RH)	EUR 12.500,--	EUR 15.300,--
Sportsman	(LH)	EUR 12.700,--	EUR 15.500,--
Cross	(RH)	EUR 13.000,--	EUR 15.800,--
Ranger	(RH)	EUR 12.700,--	EUR 15.500,--
Ranger	(LH)	EUR 12.900,--	EUR 15.700,--

Surhcarges for black engine, gearbox and final drive and for non standard colours will be the same as in 2020.

We will change the colours on almost all models. We are currently in negotiations with the factory about new colors. More information will follow as soon as possible. We ask for a little patience.

Delivery costs for motorcycles have not yet been negotiated, we will announce shortly.

In one of the next newsletters we will announce the exact specifications and colours of the models in 2021. One thing in advance: EURO5 was mainly achieved because of a completely new exhaust system. All models in 2021 will be equipped with a 2in1 exhaust system. The muffler is raised and on the right side of the motorcycle. So at RH versions between the motorcycle and the sidecar. We will take care of the development of a 2in2 exhaust system for the classic URAL models as soon as possible.

Best regards  
URAL Team Austria
