2.) Illuminated sign

We have a new illuminated sign.

The IMZ logo shines in an 80x15x80 cm aluminum box on gray plexiglass.

Approximate delivery time is 8 weeks. When ordering, there is the possibility to determine the position of the power connection and to rummage between wall suspension or a chain for hanging the box. If no special request is announced when ordering, we will have the article produced as shown.

We believe that every URAL dealer should put it in the showroom or the store window.

4.) Parts for historical wheel hubs

We had distance bushings for older wheel hubs manufactured in Austria because the URAL plant no longer delivers, unfortunately this means that some prices have to be adjusted.

Now available:

ID 456, 6206134, Left distance bushing

DP EUR 7,50

recommended retail price excl. tax/es EUR 10,--

ID 462, 6206133, Right distance bushing

5.) Price adjustment spare parts

We are currently working on the price adjustment, there will be a general price increase of 5%, but individual parts will unfortunately become even more expensive.

6.) URAL in COVID-19 mode

We are (still) working here in Austria. We also have enough toilet paper.

We have a full warehouse and can ship orders for motorcycles in stock immediately. Our delivery of spare parts is also upright. However, we do notice that transport companies currently have longer delivery times due to border closures and staff shortages.

Like all large plants in the automotive sector, the URAL plant will also cease production this week and will remain closed until April 10, 2020.

Here is the original message from the URAL plant:

Dear colleagues,

We would like to inform you about the situation with manufacturing of motorcycles at PK IMZ.

As you are well aware, the Coronavirus pandemic has severely affected the lives of hundreds of millions of people around the world.

Unfortunately, nobody can predict how this situation will develop and this is probably the worst part after only the concerns for the well-being of our families.

In this situation the only prudent approach as we view it is to take a pause and see what's going to happen in the next few days and weeks.

With this in mind we made a decision to temporarily halt the production at our factory in Irbit. At this point we plan to resume operations at or around April 10th.

We are revising our production schedule, purchasing plan and budget which may take up to two weeks.

We will discuss with you the new purchasing plan after that.

We hope very much for your understanding and patience.

Please stay healthy and take care of these in need.

Regards,

Georgy Kurmachev

Of course, we are all entrepreneurs for whom the current situation means great economic chaos. Ultimately, we are all only humans who have only one life at our disposal and it can be over faster than we would like. Therefore, use this strange time to become aware of what really matters in life. Hold on and don't lose heart! With this in mind, we wish you all the best, please stay healthy!
