3.) changes prices and delivery costs spare parts

Also this year the URAL factory has increased the spare parts prices again, which is why we will increase the prices by 2% as well from 26.02.2021. Orders received by us until 25.02.2021 will be offset against the old prices. Orders from 26.02.2021 will be offset against the new prices.

Unfortunately, other suppliers also keep us informed about large price increases. We will announce these separately and implement them on an ongoing basis. We ask for your understanding.

As a reminder: The current versions of all catalogs can always be found on www.ural.cc/b2b (password: br0815ille). In addition, we will generally increase our shipping costs for spare parts by EUR 3,00 per package from 26.02.2021. We will not invoice packaging surcharge for crash bars from MT s.r.l. anymore.

4.) specifications 2021

Find attached new specification 2021 file. You can look all specifications for each model after.
