## **2.) parts price list**

While checking parts prices from factory, we had to realize that we need to increase the prices for final drives rather high. The new prices for final drive components are shown at EFI price list on [www.ural.cc/b2b](http://www.ural.cc/b2b) (password: br0815ille).

catalogue Z08.02 Pos 11  
DP EUR 620,--  
recommended retail price w/o VAT EUR 820,--

This system from GPR comes without exhaust tubes. This system will be slipped on the original Russian exhaust pipes. Instead of the Russian catalysts there are two branch pipes delivered by GPR. Therefore we can mount this system to following URAL models starting with model year 2009 (35mm diameter exhaust pipes): Tourist, cT, Classic, T TWD, Sportsman and Ranger.  
Because of missing exhaust pipes the system is cheaper compared to the complete GPR system.

#### **5.) EURO5 / URAL dealers meeting / URAL winter meeting**

We received from Alexey Nuraev following information:

*Ilya had a Euro 5 status review with R&D and sourcing and they concluded that due to lead times for some components as well as time required for production preparation we cannot build motorcycles compliant with Euro5 until 01.04.2021. It means that we have to prepare ourselves for plan B (end of series) to cover January-March demand.*

*I will build up certification schedule based on this information. My plan is to get type approval not later than 31.01.2021 to give you 2 months for local approvals (CNIT etc).*

That means: In 2021 the URAL factory will not deliver any motorcycles until 01.04.2021.

We as distributor are asked to build up a big as possible stock of EURO4 motorcycles until the end of 2020 and ask for exception for registration under the title end of series, so that we will be liquid with URAL in 2021 as long as possible.

We had such a situation already at the change from EURO3 to EURO4.

URAL dealers meeting 2020:

Under these circumstances, it does not make sense to organize a dealers meeting in November because at this time we are not able to inform you with any news for 2021. Therefore we decided to delay the dealers meeting to February 2021 and combine it with our annual URAL winter meeting.

**Date:**

Arrival of dealers: Thursday, 04.02.2021

Meeting: Friday, 05.02.2021

departure: Saturday, 06.02.2021

Instead of departure all participants of the dealers meeting are warmly invited to participate in our URAL winter meeting at the castle ruin Prandegg. At this meeting we are always riding our URAL motorcycles on winter roads for a nice and sometimes challenging trip.

Location of URAL meeting:

Hotel Fürst in Unterweißenbach. This is a small village near the winter meeting location. On Thursday 04.02.2021 we offer open house for our dealers in Marchtrenk, so that you can visit our parts stock as every year.

The dealers meeting itself is located in the village Unterweißenbach around 80 km north east of our company.

We really appreciate, if you participate in the winter meeting. Best possible of course with your own URAL. For dealers, who are not able to bring their own URAL, we are sure, we will find some possibility to ride with us as passenger/monkey. At least bring warm motorcycle clothes with you.

**6.) new Ural dealer in France.**

We are very happy to welcome a new URAL dealer in France. The first two URAL motorcycles arrived last week already.
